

CALL FOR WORKSHOP PROPOSALS

PLI 2003: Principles, Logics, and Implementations of High-Level Programming Languages

Uppsala, Sweden
August 25-29, 2003

The 2003 colloquia on Principles, Logics, and Implementations of High-Level Programming Languages ([PLI 2003](#)) will be held in Uppsala, Sweden, on August 25-29, 2003. PLI 2003 is a federation of colloquia that includes [ICFP 2003](#) (the ACM SIGPLAN International Conference on Functional Programming) and [PPDP 2003](#) (the ACM SIGPLAN International Conference on Principles and Practice of Declarative Programming).

Proposals for workshops are invited for consideration of ACM SIGPLAN sponsorship and affiliation with PLI 2003. Affiliated workshops will be held in parallel with the ICFP and PPDP colloquia. The purpose of these workshops is to provide a platform for presenting novel ideas in a less formal and possibly more focused way than the conferences themselves. As such, they also offer a good opportunity for young researchers to present their work and to obtain feedback from an interested community. The format of each workshop is to be determined by the organizers, but it is expected that they contain ample time for general discussion. The preference is for one-day workshops, but other schedules will also be considered.

Researchers and practitioners are invited to submit workshop proposals to the PLI 2003 Workshop Chair, Peter Lee (petel@cs.cmu.edu), **no later than February 14, 2003**. Submission may be made by e-mail (Postscript, PDF, or ASCII) with "PLI03 Workshop Submission" in the subject header. Following ACM SIGPLAN's sponsorship procedures, proposals must include:

1. The name of the workshop and the sponsoring conference, if any (ICFP, PPDP, or neither).
2. A statement of goals for the workshop.
3. The names and addresses of the organizers.
4. The names of potential participants, such as program committee members.
5. A description of the plans for call for participation (e.g., call for papers).
6. The expected number of attendees and the planned length of the workshop.
7. A description of the plans for publicity.
8. An explanation of any plans for a proceedings.
9. A description of past versions of the workshop, including dates, organizers, submission and acceptance counts, attendance, sites, registration fees and summary budget information.
10. The URL of the workshop web site.

Notification of acceptance will be made by March 7, 2003. Accepted workshops will be sponsored by SIGPLAN (see http://www.acm.org/sigplan/sigplan_workshop_proposal.htm for more information). A committee chaired by the PLI 2003 Workshop Chair and consisting of the ICFP and PPDP Program and Conference Chairs and the SIGPLAN Executive Committee will evaluate all proposals. The workshop selection committee members are:

[Peter Lee](#), Carnegie Mellon University, Workshop Chair for PLI 2003
[Dale Miller](#), INRIA/FUTURS and École Polytechnique, Program Chair for PPDP 2003
[Kostis Sagonas](#), Uppsala University, General Chair for PPDP 2003
[Zhong Shao](#), Yale University, Member of the SIGPLAN Executive Committee
[Olin Shivers](#), Georgia Institute of Technology, Program Chair for ICFP 2003
[Colin Runciman](#), University of York, General Chair for ICFP 2003

Any further information needed for preparing a workshop proposal can be obtained by sending email to Peter Lee (petel@cs.cmu.edu) or consulting the PLI 2003 web site at <http://www.it.uu.se/pli03>, the ICFP 2003 web site at <http://www-users.cs.york.ac.uk/~colin/icfp2003.html>, or the PPDP conference series web site at <http://pauillac.inria.fr/~fages/PPDP/>.
